### **DETAILED ACTION**

1. Claims 1-14 are allowed.
2. Applicant's arguments, see Appeal Brief, filed 3/28/2005, with respect to independent claims have been fully considered and are persuasive. The rejections of claims 1-14 have been withdrawn. The Levine reference (US Patent Number 5,974,234) discloses a centralized printer server system. However, it does not disclose the printer server system is a thin print server. Therefore, the previous rejections have been withdrawn.

#### ***Reason for allowance***

3. The following is an examiner's statement of reasons for allowance: based upon the totality of applicants' arguments (pages 6-22), on behalf of independent claims 1, 6, and 11, in appeal brief filed on 3/28/2005, the examiner has determined applicants' claims are allowable over the prior art of record, the prior art of record does not teach or suggest, individually or in combination of a thin print server having configured to be accessed and managed by one or more client computers through a web browser in order to receive a print job, manage print queues, and forward a print job to a shared network printer for printing in light of other features describe in independent claims 1, 6 and 11.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
